

**CITY OF AURORA, MINNESOTA**

---

**Resolution No.2014-009**

**Resolution in support of the PolyMet Mining NorthMet Project**

Resolved by the City Council of the City of Aurora that,

**WHEREAS**, the City of Aurora is aware that the PolyMet Mining NorthMet Project is proceeding through the joint State and Federal environmental review and permitting process; and

**WHEREAS**, the metals that PolyMet will mine are essential for daily life - copper, nickel, cobalt, platinum, palladium and gold - found in countless products, including cell phones, computers, joint replacements, medical treatments and devices, wind turbines and catalytic converters; and

**WHEREAS**, the combination of strict Minnesota regulations and PolyMet's commitment to mining in a way that protects the environment will serve as a global template for responsible, ethical and successful mining practices; and

**WHEREAS**, the proposed mining and processing operation will create 360 direct jobs and over 600 indirect jobs in St. Louis County alone; and

**WHEREAS**, it is anticipated that the PolyMet Mining project will require 2 million hours of labor during its construction phase; and

**WHEREAS**, PolyMet Mining will contribute millions of dollars to local cities, school districts and the State through net proceeds taxes, occupation taxes, and sales tax; and

**WHEREAS**, it is stated within the Minnesota Department of Natural Resources, US Army Corps of Engineers, and the US Forest Service's supplemental draft Environmental Impact Statement (SDEIS), "The SDEIS has thoroughly evaluated water quality impacts, and has shown the project will not cause an exceedance of aquatic life water quality standards."

**NOW, THEREFORE, BE IT RESOLVED**, that the City Council of the City of Aurora strongly supports the PolyMet Mining NorthMet Project.

Adopted by the City Council of the City of Aurora on March 4, 2014
