PolyMet Mining Corp.

Notes to Condensed Interim Consolidated Financial Statements

As at July 31, 2014 and for the three and six months ended July 31, 2014

Unaudited - Tabular amounts in thousands of U.S. Dollars, except for price per share and number of shares

1. Nature of Business and Liquidity

PolyMet Mining Corp. ("PolyMet" or the "Company") was incorporated in British Columbia, Canada on March 4, 1981 under the name Fleck Resources Ltd. The Company changed its name from Fleck Resources to PolyMet Mining Corp. on June 10, 1998. The Company is engaged in the exploration and development, when warranted, of natural resource properties. The Company's primary mineral property is the NorthMet Project ("NorthMet" or "Project"), a polymetallic project in northeastern Minnesota, USA which comprises the NorthMet copper-nickel-precious metals ore body and the Erie Plant, a processing facility located approximately six miles from the ore body. The realization of the Company's investment in NorthMet and other assets is dependent upon various factors, including the existence of economically recoverable mineral reserves, the ability to complete the environmental review and obtain permits necessary to construct and operate NorthMet, the ability to obtain financing necessary to complete the exploration and development of NorthMet, and future profitable operations or alternatively, disposal of the investment on an advantageous basis.

On September 25, 2006, the Company received the results of a Definitive Feasibility Study prepared by Bateman Engineering Pty Ltd and NorthMet moved from the exploration stage to the development stage. An updated Technical Report under NI 43-101 was filed in January 2013.

The corporate address and records office of the Company are located at 100 King Street West, Suite 5700, Toronto, Ontario, Canada M5X 1C7, and 700 West Georgia, 25th Floor, Vancouver, British Columbia, Canada, V7Y 1B3, respectively. The executive office of Poly Met Mining, Inc. ("PolyMet US"), the Company's wholly-owned subsidiary, is located at 444 Cedar Street, Suite 2060, St. Paul, Minnesota, United States of America, 55101.

The consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities in the normal course of operations.

Liquidity risk is the risk the Company will not be able to meet its financial obligations as they become due. As at July 31, 2014, PolyMet had cash of \$16.283 million and working capital of \$9.760 million. PolyMet will need to raise sufficient funds to meet its current obligations as well as fund ongoing development, capital expenditures and administration expenses in accordance with the Company's spending plans for the next year. While in the past the Company has been successful in closing financing agreements, there can be no assurance it will be able to do so again. Management believes that, based upon the underlying value of the NorthMet Project, it will be able to obtain the necessary financing to meet the Company's minimum obligations for at least the next 12 months. However, there are no assurances that these initiatives will be successful or sufficient to meet the Company's liquidity requirements.

PolyMet Mining Corp.

Notes to Condensed Interim Consolidated Financial Statements

As at July 31, 2014 and for the three and six months ended July 31, 2014

Unaudited - Tabular amounts in thousands of U.S. Dollars, except for price per share and number of shares

2. Summary of Significant Accounting Policies

a) Statement of Compliance

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), including IAS 34, Interim Financial Reporting and follow the same accounting policies and methods of application as set out in Note 2 of the audited consolidated financial statements for the year ended January 31, 2014, except as outlined in Note 2c below. These condensed interim consolidated financial statements do not include all the information and note disclosures required by IFRS for annual financial statements and therefore should be read in conjunction with the Company's audited consolidated financial statements for the year ended January 31, 2014. These condensed interim consolidated financial statements were approved by the Board of Directors on September 9, 2014.

b) Basis of Consolidation and Presentation

The condensed interim consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary. Inter-company balances and transactions have been eliminated on consolidation.

The condensed interim consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets classified as available-for-sale. All dollar amounts presented are in United States ("US") dollars unless otherwise specified.

c) Adoption of New or Amended IFRS

On February 1, 2014, the Company adopted the following new or amended accounting standards that were previously issued by the IASB, which did not have a significant impact on the Company's consolidated financial statements.

IFRIC 21 – Levies

IFRIC 21 is an interpretation of IAS 37 and addresses the accounting for an obligation to pay a levy that is not an income tax. IFRIC 21 is effective for annual periods beginning on or after January 1, 2014.

d) Future Accounting Changes

The Company anticipates that all of the relevant pronouncements will be adopted in the Company's accounting policy for the first period beginning after the effective date of the pronouncement. Information on new standards, amendments and interpretations that are expected to be relevant to the Company's financial statements is provided below. Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Company's financial statements and are therefore not discussed below.

IFRS 9 – Financial instruments - classification and measurement

The IASB has suspended the originally planned effective date of January 1, 2015 for IFRS 9. The IASB issued IFRS 9 as the first step in its project to replace IAS 39: Financial Instruments – recognition and measurement. The Company will commence assessing the impact of this new standard upon the announcement of its new effective date.

PolyMet Mining Corp.

Notes to Condensed Interim Consolidated Financial Statements

Unaudited - Tabular amounts in thousands of U.S. Dollars, except for price per share and number of shares

3. Mineral Property Agreements

NorthMet, Minnesota, U.S.A.

Pursuant to an agreement dated January 4, 1989, subsequently amended and assigned, the Company leases certain property in St. Louis County, Minnesota from RGGGS Land & Minerals Ltd., L.P. The initial term of the renewable lease was 20 years and called for total lease payments of \$1.475 million. The Company can, at its option, terminate the lease at any time by giving written notice to the lessor not less than 90 days prior to the effective termination date or can indefinitely extend the 20-year term by continuing to make \$150,000 annual lease payments on each successive anniversary date. All lease payments have been paid or accrued to July 31, 2014. The next payment is due in January 2015.

The lease payments are considered advance royalty payments and shall be deducted from future production royalties payable to the lessor, which range from 3% to 5% based on the net smelter return received by the Company. The Company's recovery of \$2.225 million in advance royalty payments is subject to the lessor receiving an amount not less than the amount of the annual lease payment due for that year.

Pursuant to an agreement effective December 1, 2008, the Company leases certain property in St. Louis County, Minnesota from LMC Minerals. The initial term of the renewable lease is 20 years and calls for minimum annual lease payments of \$3,000 for the first four years after which the minimum annual lease payment increases to \$30,000. The initial term may be extended for up to four additional five-year periods on the same terms. All lease payments have been paid or accrued to July 31, 2014. The next payment is due in November 2014.

The lease payments are considered advance royalty payments and will be deducted from future production royalties payable to the lessor, which range from 3% to 5% based on the net smelter return that we receive. The Company's recovery of \$0.069 million in advance royalty payments is subject to the lessor receiving an amount not less than the amount of the annual lease payment due for that year.

Pursuant to the leases, PolyMet holds mineral rights and the right to mine upon receiving the required permits. PolyMet has proposed to acquire surface rights through a land exchange with the United States Forest Service (Note 7).

PolyMet Mining Corp.

Mine equipment	949	949
Total	\$ 262,209	\$ 245,880

Erie Plant, Minnesota, U.S.A.

In October 2003, the Company entered into an option with Cliffs Natural Resources Inc. ("Cliffs") to purchase 100% ownership of large parts of the former LTV Steel Mining Company ore processing plant in northeastern Minnesota (the "Erie Plant"). The Company exercised this option on November 15, 2005 under the Asset Purchase Agreement with Cliffs ("Cliffs I").

On December 20, 2006, the Company closed a transaction ("Cliffs II") in which it acquired, from Cliffs, property and associated rights sufficient to provide it with a railroad connection linking the mine development site and the Erie Plant. The transaction also included a 120-railcar fleet, locomotive fuelling and maintenance facilities, water rights and pipelines, administrative offices on site and an additional 6,000 acres to the east and west of and contiguous to its existing tailing facilities.

The cost of acquisition of the Erie Plant and associated infrastructure was \$18.9 million in cash and 9,200,547 shares at a fair market value of \$13.953 million.

The Company assumed certain ongoing site-related environmental and reclamation obligations as a result of the above purchases (Note 6). These environmental and reclamation obligations are presently contracted under the terms of the purchase agreements with Cliffs. Once the Company obtains its permit to mine and Cliffs is released from its obligations by the State agencies, the Company's obligations will be direct with the governing bodies.

During the six months ended July 31, 2014, the Company capitalized 100% of borrowing costs on long-term (Note 7) and convertible debt (Note 9) in the amount of \$0.901 million (July 31, 2013 - \$1.211 million) as part of the cost of NorthMet assets. As NorthMet assets are not in use or capable of operating in a manner intended by management, no amortization of these assets has been recorded to July 31, 2014.

PolyMet Mining Corp.

Notes to Condensed Interim Consolidated Financial Statements

As at July 31, 2014 and for the three and six months ended July 31, 2014

Unaudited - Tabular amounts in thousands of U.S. Dollars, except for price per share and number of shares

5. Wetland Credit Intangible

Details of Wetland Credit Intangibles are as follows:

	July 31, 2014	January 31, 2014
Wetland Credit Intangible – Exercised options	\$ 1,579	\$ 1,579
Wetland Credit Intangible – Unexercised options	4,613	4,513
	<u>\$ 6,192</u>	<u>\$ 6,092</u>

On March 9, 2012, the Company acquired a secured interest in land ("AG Land") owned by AG for Waterfowl, LLP ("AG") that is permitted for wetland restoration. AG subsequently assigned the agreement to EIP Minnesota, LLC ("EIP") and the Company consented on September 7, 2012. EIP will restore the wetlands and, upon completion, wetland credits are to be issued by the proper governmental authorities. The Company plans to use the wetland credits to offset wetlands disturbed during construction and operation of NorthMet. The Company holds a first mortgage on the AG Land, which will be proportionately released as wetland credits are transferred to the Company. The Company has the option to exercise five separate phases of wetland credit development. Any option not exercised by February 28, 2017 will expire and the remaining mortgage, if any, will be released. As at July 31, 2014, the Company had exercised the option on phase 1. Upon completion of phase 1 construction, 371,854 common shares paid as part of the initial consideration will be released from escrow.

As part of the initial consideration, AG holds warrants to purchase 1,249,315 common shares at \$1.3007 per share at any time until December 31, 2015, subject to mandatory exercise if the 20-day volume weighted average price ("VWAP") of PolyMet shares is equal to or greater than \$3.00 and PolyMet provides notice to AG that it has received permits necessary to start construction of the NorthMet Project. The exercise price of the purchase warrants and the number of warrants are subject to conventional anti-dilution provisions.

Performance payments for ongoing maintenance totaling \$0.68 million will be due over the seven years following construction completion of phase 1. Performance payments for construction completion and ongoing maintenance totaling \$1.063 million per phase of phase 2 through 5 will only be incurred if and when the Company exercises its option on those phases and will be due over the seven years following exercise of each phase. The Company is also required to make annual payments of \$0.025 million per unexercised phase, which is applied towards future performance payments. If wetland credits are issued by the proper governmental authorities before the seven-year anniversary of exercise of each phase, any unpaid amounts are due upon issuance of the wetland credits.

PolyMet Mining Corp.

Notes to Condensed Interim Consolidated Financial Statements

As at July 31, 2014 and for the three and six months ended July 31, 2014

Unaudited - Tabular amounts in thousands of U.S. Dollars, except for price per share and number of shares

6. Environmental Rehabilitation Provision

Details of Environmental Rehabilitation Provision are as follows:

	Six months ended July 31, 2014	Year ended January 31, 2014
Environmental Rehabilitation Provision – beginning of period	\$ 51,144	\$ 53,488
Change in estimated liability	-	2,430
Liabilities discharged	(534)	(1,515)
Accretion expense	847	1,521
Change in risk-free interest rate	1,555	(4,780)
Environmental Rehabilitation Provision – end of period	53,012	51,144
Less current portion	(1,311)	(1,504)
Non-current portion	\$ 51,701	\$ 49,640

As part of the consideration for the Cliffs Purchase Agreements (Note 4), the Company indemnified Cliffs for the liability related to final reclamation and closure of the acquired property.

Federal, state and local laws and regulations concerning environmental protection affect the Company's operations. Under current regulations, the Company is contracted to indemnify Cliffs' requirement to meet performance standards to minimize environmental impact from operations and to perform site restoration and other closure activities. Once the Company obtains its permit to mine the environmental and reclamation obligations will be direct with the governing bodies. The Company's provisions for future site closure and reclamation costs are based upon existing reclamation requirements. It is not currently possible to estimate the impact on operating results, if any, of future legislative or regulatory developments.

In April 2010, Cliffs entered into a consent decree with the Minnesota Pollution Control Agency ("MPCA") relating to alleged violations on the Cliffs Erie Property. This consent decree required both short and long-term mitigation. Field study activities were completed in 2010 and 2011 and short-term mitigations were initiated in 2011 as outlined in the plans and approved by the MPCA. In April 2012, long-term mitigation plans were submitted to the MPCA for its review and approval. In October 2012, a response was received from the MPCA approving plans for pilot tests of various treatment options to determine the best course of action. Although there is substantial uncertainty related to applicable water quality standards, engineering scope, and responsibility for the financial liability, the October 2012 response from the MPCA and subsequent communication provides clarification to the potential liability for the long-term mitigation included in the Company's environmental rehabilitation provision. This resulted in a \$2.4 million increase to the provision during the year ended January 31, 2014.

The Company's best estimate of the environmental rehabilitation provision at July 31, 2014 was \$53.0 million (January 31, 2014 - \$51.1 million) based on estimated cash flows required to settle this obligation in present day costs of \$27.1 million (January 31, 2014 - \$27.3 million) for Cliffs I and \$32.8 million (January 31, 2014 - \$33.1 million) for Cliffs II, an annual inflation rate of 2.00% (January 31, 2014 - 2.00%) and a risk-free interest rate of 3.07% (January 31, 2014 - 3.35%). Payments are expected to occur over a period of approximately 34 years.

PolyMet Mining Corp.

Notes to Condensed Interim Consolidated Financial Statements

As at July 31, 2014 and for the three and six months ended July 31, 2014

Unaudited - Tabular amounts in thousands of U.S. Dollars, except for price per share and number of shares

7. Long Term Debt

Details of Long Term Debt are as follows:

	Six months ended July 31, 2014		Year ended January 31, 2014
Long Term Debt – beginning of period	\$ 4,276	\$	3,950
Accretion and capitalized interest	167		326
Long Term Debt – end of period	4,443		4,276
Less current portion	(4,443)		-
Non-current portion	\$ -	\$	4,276

On June 30, 2011, the Company closed a \$4.0 million loan from Iron Range Resources & Rehabilitation Board ("IRRRB"), a development agency created by the State of Minnesota to stabilize and enhance the economy of northeastern Minnesota. At the same time, the Company exercised its options to acquire two tracts of land as part of the proposed land exchange with the U.S. Forest Service ("USFS"). The loan is secured by the land acquired, carries a fixed interest rate of 5% per annum, compounded annually, and is repayable on the earlier of June 30, 2016 or the date which the related land is exchanged with the USFS (expected to occur within 12 months from July 31, 2014). The Company has issued warrants giving the IRRRB the right to purchase 461,286 shares of its common shares at \$2.1678 per share at any time until the earlier of June 30, 2016 and one year after permits are received ("IRRRB Warrants"). All long term debt borrowing costs were eligible for capitalization and 100% of these costs were capitalized during the six months ended July 31, 2014.

8. Glencore Financing

Since October 31, 2008 the Company and Glencore have entered into a series of financing agreements and a marketing agreement whereby Glencore committed to purchase all of the Company's production of concentrates, metal, or intermediate products on market terms at the time of delivery for at least the first five years of production. As part of the 2013 financing agreement, PolyMet and Glencore entered into a Corporate Governance Agreement whereby from January 1, 2014 as long as Glencore holds 10% or more of PolyMet's shares (on a fully diluted basis) Glencore shall have the right, but not obligation to designate at least one director and not more than the number of directors proportionate to Glencore's fully diluted ownership of PolyMet, rounded down to the nearest whole number, such number to not exceed 49% of the total board. PolyMet previously appointed a senior member of Glencore's technical team to PolyMet's Technical Steering Committee.

The financing agreements comprise \$25.0 million initial principal Series A-D debentures in calendar 2008 drawn in four tranches (Note 9), \$25.0 million placement of PolyMet common shares in calendar 2009 in two tranches, \$30.0 million placement of PolyMet common shares in calendar 2010 in three tranches (the "2010 Agreement"), \$20.0 million placement of PolyMet common shares in calendar 2011 in one tranche (the "2011 Agreement"), and \$20.960 million purchase of PolyMet common shares in the Rights Offering (the "2013 Agreement"). As a result of the series of financing transactions and the purchase by Glencore of PolyMet common shares previously owned by Cliffs, Glencore's current ownership and ownership rights of PolyMet comprises:

- 78,724,821 shares representing 28.6% of PolyMet's issued shares;
- \$25.0 million initial principal floating rate secured debentures due September 30, 2015 (Note 9). Including capitalized and accrued interest as at July 31, 2014, these debentures are exchangeable at \$1.2920 per share into 25,309,463 common shares of PolyMet upon PolyMet giving Glencore ten days' notice that it has received permits necessary to start construction of NorthMet and availability of senior construction finance in a form reasonably acceptable to Glencore ("Early Maturity Event") or are repayable on September 30, 2015. The exercise price of the exchange warrants and the number of warrants are subject to conventional anti-dilution provisions; and
- Glencore holds warrants to purchase 6,458,001 million common shares at \$1.3007 per share at any time until December 31, 2015, subject to mandatory exercise if the 20-day volume weighted average price ("VWAP") of PolyMet common shares is equal to or greater than 150% of the exercise price and occurrence of the Early Maturity Event. The exercise price of the purchase warrants and the number of warrants are subject to conventional anti-dilution provisions.

If Glencore were to exercise all of its rights and obligations under these agreements, it would own 110,492,285 common shares of PolyMet, representing 35.9% on a partially diluted basis, that is, if no other options or warrants were exercised or 33.6% on a fully diluted basis.

PolyMet Mining Corp.

8. Glencore Financing - Continued

2013 Agreement

On April 10, 2013, the Company amended its previous financing arrangement and issued a new Tranche E debenture ("2013 Debenture") with the principal amount of \$20.0 million to Glencore and Glencore agreed to a Standby Purchase Agreement ("Standby") related to the \$60.480 million Rights Offering by the Company (Note 10). Under the Standby, Glencore agreed to purchase any common shares offered under the Rights Offering that were not subscribed for by holders of the rights, subject to certain conditions and limitations. The 2013 Debenture carried a fixed interest rate of 4.721% per annum payable in cash monthly and matured on the earlier of (i) closing of the Rights Offering by the Company or (ii) May 1, 2014. The Company provided security by way of a guarantee and by the assets of the Company and its wholly-owned subsidiary. The sale of the 2013 Debenture was consummated on April 11, 2013. The Company accounted for the 2013 Debenture issued initially at fair value and subsequently at its amortized cost. Transaction costs for the financing were \$0.103 million. The 2013 Debenture was repaid upon the closing of the Rights Offering on July 5, 2013. All debt borrowing costs were eligible for capitalization and 100% of these costs were capitalized during the six months ended July 31, 2014.

Glencore purchased PolyMet common shares for \$20.960 million in the Rights Offering (Note 10), which closed on July 5, 2013.

2014 Agreement

On April 25, 2014, the Company amended its previous financing arrangement and extended the term of the Series A-D Debentures and the expiration date of the associated Exchange Warrants to the earlier of the Early Maturity Event or September 30, 2015. All other terms of both the debentures and the warrants described above are unchanged. Other than reclassification from short term to long term, the extension did not impact the financial statements.

PolyMet Mining Corp.

Notes to Condensed Interim Consolidated Financial Statements

As at July 31, 2014 and for the three and six months ended July 31, 2014

9. Convertible Debt

Details of Convertible Debt are as follows:

	Six months ended July 31, 2014	Year ended January 31, 2014
Convertible Debt – beginning of period	\$ 31,967	\$ 30,508
Accretion and capitalized interest	734	1,459
Convertible Debt – end of period	32,701	31,967
Less current portion (Note 8)	-	31,967
Non-current portion	\$ 32,701	\$ -

On October 31, 2008, the Company issued \$25.0 million of Debentures to Glencore that bear interest at 12-month US dollar LIBOR plus 4%, compounded quarterly. Interest is payable in cash or by increasing the principal amount of the Debentures, at Glencore's option. At July 31, 2014, \$7.701 million (January 31, 2014 - \$6.967 million) of interest had been added to the principal amount of the debt since inception. The Company has provided security on the Debentures covering all of the assets of PolyMet and PolyMet US, including a pledge of PolyMet's 100% shareholding in PolyMet US. The due date of the Debentures is the earlier of (i) the Early Maturity Event (see Note 8), and (ii) September 30, 2015, on which date all principal and interest accrued to such date will be due and payable. Upon occurrence of the Early Maturity Event and at the Company's option, the initial principal and capitalized interest are exchangeable into common shares of PolyMet at \$1.2920 per share. Glencore has the right to exchange some or all of the debentures at any time under the same conversion terms. All convertible debt borrowing costs were eligible for capitalization and 100% of these costs were capitalized during the six months ended July 31, 2014.

PolyMet Mining Corp.

10. Share Capital

a) Share Issuances for Cash

On May 24, 2013, the Company filed the final prospectus for an offering of rights ("Rights") to holders of common shares of the Company (the "Rights Offering"). Every shareholder received one Right for each common share owned on June 4, 2013, the Record Date, and two Rights entitled the holder to acquire one new common share of the Company at \$0.66 per share.

Upon the closing of the Rights Offering on July 5, 2013, the Company issued a total of 91,636,202 common shares for gross proceeds of \$60.480 million. Expenses and fees relating to the Rights Offering were \$2.108 million, including the \$1.061 million standby commitment fee paid to Glencore, and reduced the gross proceeds recorded as share capital. The closing of the Rights Offering triggered customary anti-dilution provisions for outstanding warrants, share options, and unissued restricted share units.

During the six months ended July 31, 2014 the Company issued 75,000 shares (July 31, 2013 – nil) pursuant to the exercise of share options for total proceeds of \$0.081 million (July 31, 2013 - \$nil).

b) Share-Based Compensation

The Omnibus Share Compensation Plan ("Omnibus Plan") was created to align the interests of the Company's employees, directors, officers and consultants with those of shareholders. Effective May 25, 2007, the Company adopted the Omnibus Plan, which was approved by the Company's shareholders' on June 27, 2007, modified and further ratified and reconfirmed by the Company's shareholders most recently on July 10, 2012. The Omnibus Plan restricts the award of share options, restricted shares, restricted share units, and other share-based awards to 10% of the common shares issued and outstanding on the grant date, excluding 2,500,000 common shares pursuant to an exemption approved by the Toronto Stock Exchange.

During the six months ended July 31, 2014, the Company recorded \$0.615 million for share-based compensation (July 31, 2013 - \$0.492 million) with \$0.365 million expensed to share-based compensation (July 31, 2013 - \$0.350 million) and \$0.250 million capitalized to mineral property, plant and equipment (July 31, 2013 - \$0.142 million). The offsetting entries were to warrants and share-based payment reserve. Total share-based compensation for the period comprised \$0.219 million for amortization of share options (July 31, 2013 - \$0.315 million) and \$0.396 million for amortization of restricted shares and restricted share units (July 31, 2013 - \$0.177 million).

PolyMet Mining Corp.**Notes to Condensed Interim Consolidated Financial Statements**

As at July 31, 2014 and for the three and six months ended July 31, 2014

*Unaudited - Tabular amounts in thousands of U.S. Dollars, except for price per share and number of shares***10. Share Capital - Continued****c) Share Options**

Details of share options are as follows:

	Six months ended July 31, 2014		Year ended January 31, 2014	
	Number of Options	Weighted Average Exercise Price (US\$)	Number of Options	Weighted Average Exercise Price (US\$)
Outstanding – beginning of period	18,659,000	1.41	14,920,000	1.94
Granted	250,000	1.07	4,639,000	0.97
Exercised	(75,000)	1.08	-	-
Expired	-	-	(750,000)	2.60
Forfeited	-	-	(150,000)	2.75
Anti-dilution price adjustment	-	-	-	(0.26)
Outstanding – end of period	18,834,000	1.42	18,659,000	1.41

The fair value of share options granted was estimated at the date of grant using the Black-Scholes Option Pricing Model with the following weighted average assumptions:

	Six months ended July 31, 2014	Year ended January 31, 2014
Risk-free interest rate	0.51%	0.23% to 0.44%
Expected dividend yield	Nil	Nil
Expected forfeiture rate	Nil	Nil
Expected volatility	56.33%	76.04% to 90.43%
Expected life in years	2.00	1.62 to 2.00
Weighted average fair value of each option	\$0.34	\$0.28

The expected volatility reflects the Company's expectation that historical volatility over a period similar to the life of the option is indicative of future trends, which may or may not necessarily be the actual outcome.

Unaudited - Tabular amounts in thousands of U.S. Dollars, except for price per share and number of shares

10. Share Capital - Continued

d) Restricted Shares and Restricted Share Units

Details of restricted shares and restricted share units are as follows:

	Six months ended July 31, 2014	Year ended January 31, 2014
	Number of restricted shares and units	Number of restricted shares and units
Outstanding - beginning of period	1,615,510	785,882
Granted	-	909,574
Vested	-	(91,353)
Anti-dilution quantity adjustment	-	11,407
Outstanding - end of period	1,615,510	1,615,510

During the year ended January 31, 2014, the Company granted 909,574 restricted share units to employees which vest upon start of construction or December 31, 2015, whichever comes earlier. The restricted share units had a fair value of \$0.881 million which is being amortized over the vesting periods.

e) Bonus Shares

Details of bonus shares are as follows:

	Six months ended July 31, 2014		Year ended January 31, 2014	
	Number Allocated	Number Authorized & Unissued	Number Allocated	Number Authorized & Unissued
Outstanding - beginning of period	3,540,000	3,640,000	3,140,000	3,640,000
Allocated	-	-	400,000	-
Unallocated	(50,000)	-	-	-
Outstanding - end of period	3,490,000	3,640,000	3,540,000	3,640,000

The bonus share incentive plan was established for the Company's directors and key employees and was approved by the disinterested shareholders at the Company's shareholders' meeting held on May 28, 2004. The Company has allocated 3,640,000 bonus shares for the achievement of Milestone 4 representing commencement of commercial production at NorthMet at a time when the Company has not less than 50% ownership interest. At the Company's Annual General Meeting of shareholders held on June 17, 2008, the disinterested shareholders approved the bonus shares for Milestone 4. Regulatory approval is required prior to issuance of these shares. The current year period includes a forfeiture of entitlement by individuals upon resignation or not continuing to stand as Directors of the Company.

The fair value of these unissued bonus shares is being amortized until the estimated date of issuance. During the six months ended July 31, 2014, the Company recorded \$0.231 million amortization related to Milestone 4 bonus shares (July 31, 2013 - \$0.364 million), which was capitalized to mineral property, plant and equipment.

13. Related Party Transactions

The Company conducted transactions with senior management, directors and persons or companies related to these individuals, and paid or accrued amounts as follows:

	Six months ended July 31	
	2014	2013
Salaries and other short-term benefits	\$ 766	\$ 747
Other long-term benefits	31	30
Share-based payment ⁽¹⁾	84	-
Total	\$ 881	\$ 777

(1) Share-based payment represents the fair value determined at grant date to be expensed over the vesting period. Share-based payments are described in Note 10.

There are agreements with key employees that contain severance provisions for termination without cause or in the event of a take-over bid. Other than the President and Chief Executive Officer, none of PolyMet's other directors has a service contract with the Company providing for benefits upon termination of his employment.

As a result of Glencore's ownership of 28.6% of the Company it is also a related party. Transactions with Glencore are described in Notes 8 and 9.

14. Commitments and Contingencies

In addition to items described elsewhere in these financial statements:

- On October 31, 2008, the Company entered into agreements with Glencore wherein Glencore will provide marketing services covering concentrates, metal, or intermediate products at prevailing market terms for at least the first five years of production.
- As at July 31, 2014, the Company had firm commitments related to the environmental review process, land options, wetland credit intangibles, consultants, and rent of approximately \$6.3 million with the majority due over the next year and the remainder due over seven years.
- As at July 31, 2014, the Company had non-binding commitments to maintain its mineral lease rights of \$0.180 million with all due in the next year.

PolyMet Mining Corp.

Long term debt	-	-	-	-	4,276	4,276
Total financial liabilities	\$ -	\$ -	\$ -	\$ -	\$ 40,049	\$ 40,049

Fair Value Measurements

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 – Inputs for the asset or liability that are not based on observable market data.

PolyMet Mining Corp.

Notes to Condensed Interim Consolidated Financial Statements

As at July 31, 2014 and for the three and six months ended July 31, 2014

Unaudited - Tabular amounts in thousands of U.S. Dollars, except for price per share and number of shares

15. Financial Instruments and Risk Management - Continued

The fair values of cash and cash equivalents, amounts receivable, and accounts payable and accrued liabilities approximate their carrying amounts due to their short-term nature. The fair value of the Company's long term and convertible debt approximates the carrying amount at amortized cost using the effective interest method.

Risks Arising from Financial Instruments and Risk Management

The Company's activities expose it to a variety of financial risks: market risk (including currency and interest rate), credit risk, and liquidity risk. Reflecting the current stage of development of the Company's NorthMet Project, the overall risk management program focuses on facilitating the Company's ability to continue as a going concern and seeks to minimize potential adverse effects on the Company's ability to execute its business plan.

Risk management is the responsibility of executive management. Material risks are identified and monitored and are discussed with the Audit Committee and the Board of Directors.

Currency Risk

The Company incurs expenditures in Canada and in the United States. The functional and reporting currency of the Company and its subsidiary is the United States dollar. Foreign exchange risk arises because the amount of Canadian dollar cash and cash equivalents, amounts receivable, or accounts payable and accrued liabilities will vary in United States dollar terms due to changes in exchange rates.

As the majority of the Company's expenditures are in United States dollars, the Company has kept a significant portion of its cash and cash equivalents in United States dollars. The Company has not hedged its exposure to currency fluctuations.

The Company was exposed to currency risk through the following assets and liabilities denominated in Canadian dollars:

	July 31, 2014	January 31, 2014
Cash and cash equivalents	\$ 109	\$ 77
Amounts receivables	5	12
Accounts payable and accrued liabilities	(39)	(8)
	<u>\$ 75</u>	<u>\$ 81</u>

Based on the above net exposures, as at July 31, 2014, a 10% change in the Canadian / United States exchange rate would have impacted the Company's loss by approximately \$7,500.

Interest Rate Risk

Interest rate risk arises from interest paid on floating rate debt and interest received on cash and short-term deposits. The Company has not hedged any of its interest rate risk. The Company currently capitalizes the majority of interest charges, and therefore the risk exposure is primarily on cash interest payable and net earnings in relation to the subsequent depreciation of capitalized interest charges.

PolyMet Mining Corp.

Notes to Condensed Interim Consolidated Financial Statements

As at July 31, 2014 and for the three and six months ended July 31, 2014

Unaudited - Tabular amounts in thousands of U.S. Dollars, except for price per share and number of shares

15. Financial Instruments and Risk Management - *Continued*

The Company was exposed to interest rate risk through the following assets and liabilities:

	July 31, 2014	January 31, 2014
Cash and cash equivalents	\$ 16,283	\$ 32,790
Convertible debt	\$ 32,701	\$ 31,967

Credit Risk

Credit risk arises on cash and cash equivalents held with banks and financial institutions, as well as credit exposure on outstanding amounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets of \$16.453 million.

The Company's cash and cash equivalents are primarily held through a large Canadian financial institution.

Liquidity Risk

Liquidity risk is the risk the Company will not be able to meet its financial obligations as they become due and arises through the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements at any point in time and is achieved by maintaining sufficient cash and cash equivalents. See additional discussion in Note 1.

Capital Management

The Company's capital management objective is to safeguard the Company's ability to continue as a going concern in order to pursue the development of its mineral property. In the management of capital, the Company includes the components of shareholders' equity, convertible debt and long term debt. The Company manages the capital structure and makes adjustments to it depending on economic conditions and the rate of anticipated expenditures. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue new debt, acquire or dispose of assets. The Company has no externally imposed capital requirements.

In order to assist in management of its capital requirements, the Company prepares budgets that are updated as necessary depending on various factors. The budgets are approved by the Company's Board of Directors.

Although the Company plans to have the resources to carry out its plans and operations through July 31, 2015, it does not currently have sufficient capital to meet its estimated project capital expenditure requirements and is in discussions to arrange sufficient capital to meet these requirements. During the upcoming fiscal year, the Company's objective is to identify the source or sources from which it will obtain the capital required to complete the Project. See additional discussion in Note 1.
